Work Experience

UX/UI Designer

ScreenCloud

Bangkok, TH

October 2019 – Present

I'm currently designing an interface to manage screens and content at ScreenCloud, with a focus on enterprise, auth, and billing features.

Design Intern

STUDIO 150

Bangkok, TH

June – August 2019

STUDIO 150 is a design studio specializing in visualizing complex data. There, I worked on me.jai, a website for Fungjai, an indie music label and streaming service.

Freelance Designer

Seattle, WA

July 2018 – June 2019

Worked on various interaction design, user experience design, and visual design projects.

Student Product Designer

University of Washington, CTE

Seattle, WA

Jan 2016 – June 2018

Designed a new identity and a web app to manage equipment reservations. Worked with engineers and stakeholders to develop, ship, and maintain this app.

Other Experience

Microsoft Surface/Xbox

Seattle, WA

January – March 2018

In a joint studio with Microsoft Devices, I designed AI-powered devices to help pet owners worry less and be more productive in their daily lives.

TEAGUE

Seattle, WA

September – December 2017

TEAGUE is a consultancy that designs airplane experiences for Boeing. In our joint studio, I designed a space tourism experience that minimizes conflicts among passengers.

Education

University of Washington

Bachelor of Design

September 2014 – June 2018

Studied at UW's multidisciplinary design program, focusing on Interaction Design and Industrial Design.
